**Haemostatic Dressings**  
 It is used as primary dressing to manage full and partial thickness wounds, with moderate exudates which may also be prone to minor bleeding and highly absorbent in nature e.g.: Pressure sores, leg ulcers, Ischaemic and diabetic ulcers, post operative wounds, skin graft donor sites, Fungating carcinomas etc. Sterile and Individually packed.

Size	5cm X 5cm	5cm X 7.5cm	10cm X 10cm	10cm X 15cm
	10 x 20cm	5cm x 10cm		

**Highly Absorbent Multilayer Foam dressing with Adhesive border (Atraumatic removal)**  
 A multi - layered dressing consisting of absorbent foam with additional highly absorbent layer and having an adhesive outermost border. Gentle soft Silicone gel allows traumatic dressing removal. Pattern coated silicone or perforated silicone film, allow free passage of wound exudate to the foam so prevents skin maceration. High absorption capacity and a breathable top film as well as water proof.

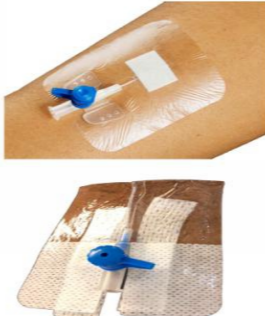

Size	7.5cm X 7.5cm	7.5cm X 10cm	10cm X 10cm	10cm X 15cm
	10cm x 20cm	10cm x 30cm		

**Multiple sizes available as per customer 's request**

**Scar reduction dressings**  
 A self-adhesive flexible patch coated with medical grade silicone adhesive that is used for scar reduction and helps significant improvement of the aesthetics of scars and prevents any new scars. The use helps in fading away of the scars. Not to be used in open wounds.  
**Size: 3.8cm X 7.2cm available for ready use.**

### IV Fixation Devices:

Products	Features and Sizes
	<p><b>Non Woven Adhesive Dressing (for I.V. Fixation)</b>                      For I.V. Fixation                      With Extra 1 or 2 Non Woven strips for better fixation.
